COAL MINE HERE DOING GOOD WORK

Mine Well Equipped With Machinery and Air Shafts for Convenience and Safety of Men—Now Mining 90 Tons a Day.

There are probably few people in Canada who have not heard of the Brick & Coal Company's plant, lately they have any idea of what a busy place this industry now is. Although the brick department is not working to capacity it has been running all summer and has been meeting with good success not only as far as the successful operation of the plant is concerned but also with regard to the sale of their goods.

The coal mine, too, has been running very satisfactorily and with better results than ever before. New machinery has been installed which not only makes it much easier for the men but also prepares the rooms for getting out the coal much more quickly. In compliance with recent regulations adopted by the government the mine has been made as safe as possible for the men. A compressed air system has been installed which furnishes more comfortable working conditions for the men underground. Besides this additional air shaft has been installed and a draft created by the assistance of a large fan run by an engine specially located for the purpose. New rules, regulations and wage scales have been drawn up by the company and these have been approved by the directors of the mine.

The leading facilities have also been greatly improved and at the present time the mine is able to handle and ship about ninety tons of coal a day.

As the quality of the coal from this mine is improving from year to year the demand for it is increasing and at present little difficulty is experienced in finding a market for the total output of the mine. As the cold weather advances an increased demand is anticipated but as the present equipment will furnish the employment of three shifts there should be little difficulty in keeping up with the demand.

The writer took a trip down through the coal mine this week and although we saw long seams of coal on all sides of us, apparently just waiting to be shoveled into the stoves and furnaces, yet we were more convinced than ever that there is considerable work and expense and although this very valuable commodity is ready for shipment. Besides all this there are the railroads which have to get their pound of flesh before this innocent looking stuff, lying as nature made it finds its way to the coal scuttles.

E. H. Sellhorn, the manager of this plant, is well posted in all branches of the work and is largely due to his ability and energies that this industry is in such a flourishing condition at the present time.

Jack Compton Writes From the Front

Councillor Laywell received a letter this week from an old Rediff boy now at the front in the person of Jack Compton. Although he has been on active service now for over three years, Jack writes that he is still in good health and able to do his share. He says he is always glad to get news from Rediff and asked that the Review be sent to him regularly.

Jack is fond of the work of the work being done by the Canadians and says they are among the "best soldiers in France." He runs across Rediff boys occasionally, although there are none in his regiment now. His relations having seen Jack Kitchin, J. P. Haggard and J. A. Nicholson recently. Not long ago he met some of the officers and men in Lieutenant Nicholson's battalion and all spoke very highly of "Nick's" ability as an officer and of the good work he had done for the men under him.

ADDITIONAL LOCALS

Don't overlook the Military Sale at Gibson & Tupper's this week and next.

Mrs. Wm. Henderson, Jr., was taken to the Medicine Hat hospital last Sunday to undergo a serious operation for internal trouble.

Limt. A. J. Nicholson visited to Mrs. P. Lavelle this week to say that at the time of writing he had recovered from his recent illness and was on his way back to join his boys in France.

S. Kernaughan, of Carverthart, Man., was a business visitor in Rediff this week. While here he visited the coal mine and when he saw the quality of the coal he left an order for immediate shipment.

The Reddiff boys who enlisted for service in Siberia, left last Friday for Regina, from which place they will sail for Vancouver where they will sail for Japan where they will spend the winter.

Miss Reid, who has been connected with the Spencer Agency office here, has several times visited the coal mine and leaves next week for Edmonton to resume her studies in the university there.

G. D. Hollinger is at present in Riverview where he is holding regular meetings in the Bow Valley church. The boys here are very about the work but the usual service will be continued in his church here.

Little Marian, the four-year-old daughter of Mr. and Mrs. Wm. Baldwin, had the misfortune to break her arm while playing with other playmates last Thursday. The fracture was attended to at once and now the misfortunate child is progressing favorably.

Mrs. J. W. Moran received word this week that her husband, Sergt. J. W. Moran, who enlisted from Reddiff with the 6th battalion, had received a military medal for conspicuous bravery in action. Mrs. Moran is a daughter of Mr. and Mrs. P. Lavelle, of this town.

Bert Cogrove, who was at one time living in Reddiff and was engaged in the flour and feed business in the Rediff block, and has been in the aviation corps in France for the past year, this week reported among the missing and was reported as having been missing since the 26th of last month.

Inspector Parker, representing the Department of Education in connection with the "Children's Welfare Association," is in town today making investigations relative to the school system in the Reddiff school here, and also to some who are under age and are not attending school.

The Presbytery meets at St. John's, Medicine Hat, at 11 a.m. this evening to induct Rev. Thomas Wilson, B.A., into the charge of that church. It also meets at noon on Tuesday to induct Rev. W. S. Brooks into that charge. The minister appointed to Seven Persons here has not yet been named.

This week Mrs. J. Morgan received a request from the Overseas Club and Patriotic League to send a caravan of the town for funds for tobacco for the boys at the front. Mrs. Morgan undertook this work and met with very successful results. As a result of her efforts Mrs. Morgan was able to send a postal order to the League for \$19.50.

Wm. Henderson and W. Horn, who left last week to enlist with the 6th battalion, were in Riverview where they were unable to go. Into that contingent, as the tanks were already filled. They have been taken on to the force, however, and will be kept in Canada for the present. W. Henderson returned to Reddiff yesterday owing to the illness of his father.

J. H. Lewis, a recent arrival in town who has come here to start a second hand store, has purchased the old Merchants bank building on the corner of Broadway and First street, at present occupied by Mrs. Wilde. Mr. Lewis is greatly impressed with the prospects of Reddiff and says there is no reason why it should not soon be the leading manufacturing centre of the west.

SCHOOL NEWS

The social evening held at the school last Friday evening was much enjoyed by the students of the upper grades and a few visiting friends. The program was varied and interesting. Much credit is due the students who did such splendid work in tastefully decorating the rooms for the occasion.

The first executive meeting of the Literary Society was held on Monday afternoon, when a program was arranged for Friday, Oct. 11. Among the numbers are recitations by Grace Welliver and Norma Woods, and songs by the girls. Besides these, Donald Stoner will give an informational address on "The Dookhlovers of Canada," and J. Caldwell's theme will be "Our Individual Responsibility as Members of the Literary Society."

A Glee Club organization meeting was held in the girls' reading room on Tuesday afternoon. Arrangements were made for regular practices on Monday and Thursday of each week. Mary Dummett was appointed registrar for the club. It is the intention of the director, Mrs. Stone, to give a series of practical lessons in theory and science of music. We hope that every eligible student will take advantage of this opportunity for self-improvement.

Having had their full share of mumps, measles, and whooping cough, the boys here are very about the work but the usual service will be continued in his church here.

The first and second honors in athletics for September were won by Vernon and Kirkpatrick respectively. We look forward with interest to the October record.

We are glad to welcome several new pupils to our school. May they find us true sports and good companions.

Dwelling House Destroyed by Fire

The sounding of the fire whistle early Tuesday morning roused the firemen from their peaceful slumbers and gave them a good opportunity for breakfast. The cause of the alarm was a fire in a vacant house in the west end of town and the alarm was given by the night watchman in the glass factory.

As no one was living in the house at the time the cause of the fire is a mystery. The house was owned by Mr. Eccroft, who is at present farming in the neighborhood of Winnipeg. It was a fine two-story house with a machine gun and five fire of attack. The American troops alongside the British were in the van, and when night fell their positions were where the points of penetration of the German line were greatest. At last accounts hard fighting was still in progress with the enemy steadily giving ground.

Reddiff Boy in Casualty List

Robert Cole, who farms just west of town, received word last Tuesday from the director of records at Ottawa, stating that his son, Pte. Melford Cole, of the Canadian Infantry, was killed in action. He was admitted to a hospital in France on September 29th. Beyond stating that his wounds consisted of gun shot. On the side, no further particulars have as yet been received.

Pte. Cole is only 22 years of age. He came to this district in 1910 and has been on the farm with his father up till the time he enlisted.

The Junior Auxiliary of St. Ambrose church last Saturday attended a rally for the Junior Women's Auxiliaries of the Diocese at Holy Trinity, Medicine Hat. A large number of children were present. After the opening service and a few words of exhortation by the Rev. Mr. Harbert, president of the Rural Daughters, gave a most interesting talk on the subject of "The Future of the Church." Papers were read by Mr. Hoath, of Holy Trinity, and Miss Gibson, of Reddiff. The Junior of Holy Trinity afterwards served refreshments to the visitors. This was the first meeting of its kind for the J. W. A. in this diocese, and proved the success of the idea. We hope it will be an annual event.

WAR NEWS OF WEEK

War news started off this week with a flurry of excitement over the peace proposals sent to President Wilson from the German, Austrian and Turkish governments. The note, which was delivered to President Wilson by the Swiss legation at Washington, stated that Wilson to make representation in their interests for a general armistice and negotiations for a general peace.

However, the allied armies still continue operations on the several fronts with continued success. The following are the daily reports:

TUESDAY.
 The situation in Russia and Siberia shows signs of improvement and the victory of Gen. Poole's forces now seems more complete. The enemy has been steadily dislodged and is now hiding along the countryside.

The withdrawal of Bulgaria from the cuts the lateral communications between the central powers and Turkey and opens the southern frontiers of Austria and Rumania to invasion. The central powers are further endangered by the intense hostility of the subject nationalities of Austria-Hungary as well.

British and French troops in the Lille sector and in the Beaulieu district were reported today to have made further advances but these were mainly in the nature of line straightening operations. It appears that the British for the moment have paused, but at the same time are taking advantage of the lull to move their positions.

In the fighting around Aachen 200 prisoners were taken by British troops. At Oxya a successful mine operation gave the British ground, thirty-four prisoners and four machine guns. The enemy is holding the Masener-Beseneville line in as much strength as he can muster.

Along the Masener-Beseneville line they have put in every man they could lay their hands on.

Great events, military officers say, may not be distant.

WEDNESDAY.
 Over a front of 20 miles between Cambrai and St. Quentin the British, American and French troops have started a mighty drive which in its first stage has thrown the enemy back several miles. In addition to the tactical positions a depth of from four to five miles. Numerous towns have been captured and seemingly all the great defensive positions of the enemy in this region have been obliterated. Large numbers of prisoners have been added to the already great groups captured since the last offensive began. In addition terrible casualties have been inflicted on the enemy by the heavy artillery at the beginning of the attack, which was early Tuesday morning and machine gun and five fire of attack.

The American troops alongside the British were in the van, and when night fell their positions were where the points of penetration of the German line were greatest. At last accounts hard fighting was still in progress with the enemy steadily giving ground.

THURSDAY.
 The German armies are in full flight before the British, American and French forces on the front between Cambrai and St. Quentin. Cambrai, the strong point of the enemy in this region, has been taken by the Canadians in its entirety, and north of Cambrai the Canadians have deeply penetrated the German lines.

Out in the open, east of what was once the old Hindenburg line, cavalry is hustling the retreating foe in what amounts to a rout. So fast is the retreat that columns of the allied troops in parade formation are following the German divisions—more than a quarter of a million men have been severely manhandled.

The maximum depth of the advance is between eight and ten miles. The Germans are declared to be fleeing to the east of Le Cateau, one of the important railway centres in their region.

Behind them the Germans are leaving the country devastated, burning towns as they flee.

Victory Loan Meeting Here Next Thursday

Plans for the work in connection with the 1918 Victory Loan are now being made throughout Canada so that everything will be in readiness for the opening day of the campaign. Mr. Wm. Cousin, of Medicine Hat, who has been appointed the organizer for this district, was in town on Monday making arrangements for the organization work here. Several citizens were called upon and all secured their willingness to assist with this work. While here Mr. Cousin mentioned a number of names of those who will help. Among these are some men from the surrounding country and an organizer requested that a meeting of the committee should be held as soon as possible.

Mr. Geo. Lyliatt has been appointed chairman of the committee and E. L. Stone secretary, and it has been arranged to have a meeting of the committee next Thursday evening, Oct. 17th, in the Review office at 8 o'clock. Those who have been selected to act on this committee will receive word from Mr. Cousin and all such are requested to attend the meeting next Thursday.

Finance Minister Starts Victory Loan

Sir Thomas White, minister of finance, opened the campaign for the second Canadian Victory Loan, with a stirring speech in Winnipeg Tuesday night.

Five hundred millions of dollars is the amount required to be raised by the Canadian government to carry on Canada's part in the prosecution of the war. The minimum amount which the raising of finance calls for is three hundred millions of dollars. The larger amount will be raised if possible.

There are two twenty-year bonds in this issue. Five and fifteen year bonds will be available in the new loan, but the interest payable by investors as follows:

Ten per cent of the total issue price on application; twenty per cent on December 6, 1919; twenty per cent on February 6, 1920; twenty per cent on January 6, 1921; twenty per cent on the second interest date, 1922. The interest will be payable by the purchaser of the bonds on this date. The net return to purchasers will be five and a half per cent of their investment.

The selling campaign for the new loan will begin Monday, October 14th, and will continue until Saturday, November 16.

Preventives for Spanish Influenza

Owing to the rapid spread of Spanish influenza through some of the larger centres both in Canada and the United States, all interested agents to be taking every precaution to stamp it out. The Manufacturers' Association of Canada has issued a warning to all industries and all circular from them which is now posted up in the Glass plant here, some good precautionary methods are suggested. The following are some of them:

Employees should be warned against spitting or sneezing without the use of handkerchiefs, and infractions of this rule should be severely dealt with. Employees should be urged to prepare and use three or four times daily an antiseptic gargle. An inexpensive solution for this purpose may be prepared by mixing three-quarters of a teaspoon of salt, one grain of permanganate of potash with one full cup of water.

Employees are urged to wash diligently for signs of the disease among employees, and if such appear, after taking the above precautions, it is suggested that the employee be isolated, to provide an antiseptic gargle similar to the above (seven parts salt, six parts permanganate of potash, one thousand parts BOTTLED water), which all exposed should be called upon to use at least four times a day for a period of one week. For this purpose individual paper cups should be provided, or employees requested to provide themselves with some similar contrivance.

Employees should also take a warning notice containing these or similar suggestions is posted in conspicuous places throughout their factories.

U. S. DECLINES ENEMY OFFER FOR PEACE

Until Enemies Remove All Troops From Invaded Territory—Wants to Know for Whom Maximilian is Speaking.

In answer to the German peace proposals President Wilson informed the German government that before the United States can discuss an armistice German troops must withdraw from all invaded territory.

He asked Chancellor Maximilian whether he represented the German people or the authorities of the empire who are conducting the war.

The president's message was not a reply, but in the form of an inquiry. The imperial German government is asked whether it accepts the terms of peace proposed by the United States to congress January 8, and subsequent addresses.

In his official document the president says he feels bound to say with regard to their suggestion of an armistice that he would not feel at liberty to consent to a cessation of hostilities until the government of the United States is associated against the central powers so long as the armies of these powers are upon their soil. The good faith of any discussion would manifestly depend upon the consent of the central powers immediately to withdraw their forces everywhere from invaded territory.

Reddiff Band Holds Annual Meeting

The annual meeting of the Reddiff Citizens band was held in the rehearsal room last Sunday morning.

The following officers were elected:
 President, B. J. Betti; vice president, J. C. Betti; secretary, J. C. Betti; treasurer, J. C. Betti; manager, Mr. Wilber; librarian and property man, J. C. Betti; the managing committee consists of J. C. Betti, D. C. Smith, Mr. Wilber, F. Riddell and J. C. Betti.

A hearty vote of thanks was given to the officers and the band.

It was thoroughly discussed as to whether the band should be kept going during the winter months. It was decided to try and keep going as long as it was a hard matter to start it.

It takes money to keep a band going and up to the present the band has had hard work to finance itself. The Reddiff boys played all the summer concerts for nothing. It was necessary for the success of those concerts to hire two men from Medicine Hat, both of whom had to be paid. Since the council discontinued the grant the band has financed itself and they have paid the director's salary right up to date. The result is the fund is pretty low in fact the band is in debt.

A band is always an asset to a town; also the band has always turned out when asked and each member has tried to do his bit.

Some of the old members have left town during the year and a few musicians have come to town. Several who did not know anything about music at all have taken up the instruments and they are practicing hard and are making very good progress. It is necessary to build a cupboard to hold the instruments and music. As money is scarce it's a cinch someone will have to be a sports.

Mr. Nelson was given authority to send for some more music for the winter. In the meantime this will have to come out of his own pocket.

Ching Ben Yen, of Vancouver, one of the leading Chinamen in Canada, stopped over in Reddiff last week end on his way to Ottawa. While here he visited several of the industries where his countrymen are employed and called on the men in their homes. On Sunday afternoon he attended a meeting of Chinamen in their reading room on Third street and addressed them on current topics.

THANKSGIVING.

Next Monday the people of Canada will be called upon to observe the day as one of thanksgiving. As this annual event comes around we are reminded of the first Thanksgiving Day on this continent when the early settlers of the eastern states set apart one day for public thanksgiving in recognition of their first bountiful harvest. For a time a day of this kind was observed annually by these people and so popular did it become among all classes that for years great importance has been attached to the event until it became a statutory holiday in both the United States and Canada. Although the harvest still plays an important part at this season it is not the only reason for the now-a-days Thanksgiving Day. With our unlimited lands and resources in this country and with our variety of climates and conditions fear of famine and hunger never enters our minds and local failures or setbacks cause no alarm. This in itself is much for which to be thankful. But this is not all. As we allow our minds to wander over to the war cursed countries of Europe now crimson with a hemorrhage of human blood and think of the horrors and anguish the only wish that comes to our minds is that the culmination of the present conflict will make a repetition of such horrors impossible in the future.

Prospects for this appear to be brighter now than even before. Apart from the successes on the western front and the enemy's admission of weakness by their latest peace move, there are the fresh victories in God's favorite country, Palestine. The boyhood home of Jesus, ever beautiful Nazareth, has been wrested from the infamous Turk, and the hordes of heathendom are rushing panic-stricken in retreat. This is one of the great victories of the year and in itself is cause for thanksgiving in all Christian countries.

Yes, there is much for which to be thankful on this Thanksgiving occasion. The wonder is that there are any in this country who have anything to complain about.

SCHOOL GRANTS.

At the Union of Alberta Municipalities being held in Medicine Hat this week the question of financing schools came for considerable discussion. In the debate it was pointed out by some of the speakers that the government of Alberta was paying much less per capita for education than either Saskatchewan or British Columbia. It was also brought out that town and city schools get much less assistance from the government than do rural schools. If this be the case—and there is no doubt it is—it is hardly fair to the schools in the larger centres as these schools are also an accommodation to children in the surrounding rural districts, especially to those who want the more advanced education that they cannot get in the rural schools.

However, there might be a way of setting around this difficulty. Most of the settlements present in a very dangerous condition. The deep trench at the

really only villages and their school districts usually take in a good part of the surrounding country. Why not just call themselves a rural school and get the additional assistance from the government?

Our provincial government has been well up to the front in many other branches of development and they should lose no means in getting in line in this most important branch.

NO PEACE YET.

A momentary flurry of excitement was caused last Monday morning when it became known that Germany, Austria and Turkey had sent a joint peace note to President Wilson asking him to get the Allied governments with which he was associated, together, and try to arrange some terms upon which peace could be arranged. The excitement, however, was only momentary. When people started down to think over the situation they thought of devastated Belgium and her ravaged women and children; of the treatment meted out to the Serbians and Armenians by the hellish Turks; of Edith Cavell; of the murderings of innocent non-combatants on the coast of England; of the Lusitania, the Landover Castle, and the Canadian Red Cross hospital; of the Jutherto bombastic boasts of the military mad Hun autocrats and of the crimes laid at their front doors; of the oft-repeated statements of Lloyd George, Balfour, Wilson and other leaders among the allied nations as to why we were in this war and to what lengths we were prepared to go to see it through to a successful finish. When we thought of all these things we knew there would be but one answer from President Wilson and we knew that his answer would be the same as was on the lips of every human being that had one drop of rich and human blood coursing through his veins.

Much as a war tired world longs for a cessation of the present hostilities they are not prepared or willing to have it come about by a mere wave of the hand by those who were the cause of it and are just now beginning to find out they cannot do all the devilish work they thought they could.

NO NEED TO WORRY.

The action of the Canadian government in commencing all creamery butter made between September 30th and November 9th does not mean that Canadians need be panic-stricken, nor does it mean that there is the least justification for hoarding or profiteering. There are in store, unaffected by this commanding order, 20,000,000 pounds of creamery butter made before September 30th. Dairy butter is not affected by the order. The average cost to cold storage companies for butter now in store is about 44½ cents a pound. The profits of storage companies selling to wholesalers are limited by the Canada Food Board Order No. 45 of June 5th, to 4 per cent, and of wholesalers selling to retailers to 10 per cent over cost delivered to warehouse.

The present supply of creamery butter in stores, together with dairy butter produced during the next six weeks will be quite sufficient to fill the ordinary demands of the Canadian public.

The work done by the street foreman on Broadway between First and Second streets is very good so far as it goes and will no doubt have the desired effect as far as taking the surface water off the centre of the street. But the job is not complete and is at present in a very dangerous condition. The deep trench at the

side of the street, with its abrupt drop from both the sidewalk and the roadway makes it dangerous not only for autos and other vehicles but also for pedestrians who might have occasion to cross the street to the post office. This is especially dangerous these dark nights when the only street light now in operation on the three busiest streets on Broadway is the one at the Atlas Lumber Yard corner.

If the trench at the side of the road were gradually tapered off it would greatly improve matters.

A number of our citizens are now wondering if it was the announcement that Germany was asking for peace that stopped the trench work on Broadway between First & Second streets.

British Convoy 70 Per Cent of Soldiers

Of the more than 1,800,000 American soldiers transported to Europe to the end of September, nearly 1,000,000 were carried in British or British controlled ships. American vessels carried 786,000 and the remainder were brought across the Atlantic on French and Italian ships.

To ensure the safety of the enormous force has entailed a tremendous amount of work for the allied fleet. The British navy has done 70 per cent of the conveying, the American fleet 27 per cent, and the French fleet 3 per cent.

During September, 31,219 American troops, 4,000 United States blue-

Are you saving for Victory Bonds?

jecks, and 5,000 Canadian troops were brought across the Atlantic.

GIVES THANKS 'CREDIT.'

The extent to which the effect of tanks in the allied armies has affected the morale of the German troops is indicated by the writings of the military

critics in German newspapers received in New York. While admitting that after the first surprise over the appearance of these mechanical monsters, the Germans destroyed great numbers of them, 5th artillery, the writer also invariably attributes all campaigns of recent months to the employment of the tanks.

Vienna newspapers announce that the Austrian Danube Steamship Company has suspended freight and passenger service beyond Orsova on account of the situation in Rumania and Bulgaria.

Bulgaria on Saturday notified the powers with which she has been allied that they must quit Bulgarian territory within a month, says a Shida dispatch to the Berlin Tagblatt. Most of the Austrians have left Bulgaria, the dispatch adds, and the Germans are leaving.

An Advertisement by Charles Dickens

CHARLES DICKENS is one of the world's great teachers. Here is what he has to say in one of his books:

"My other piece of advice, Copperfield," said Mr. Micawber, "you know. Annual income £20, annual expenditure £19 10d—result, happiness. Annual income £20, annual expenditure £20 0d—result, misery. The blessing is plain, the lesson is simple, the God of Heaven down upon the dearest scene, and—in a short, you are forever forced. As I said."

The saving of a part of one's income was always a good policy.

Prudent men and women have always maintained a margin of saving.

But to-day we must go farther in our efforts to save than ever before.

To-day it is a matter of the gravest importance that each Canadian seek ways and means to economize by cutting down expenditures for unnecessary things, saving the money he spends on things he could do without, so that when the Nation needs to borrow money he will be in a position to do his full duty.

There is war-shortening work waiting for every dollar that can be saved.

IF Charles Dickens were writing to Canadians to-day he would probably give us advice to this effect.

"My other piece of advice, Canadians, you know. No matter what percentage of your annual income you have previously saved, your efforts to-day should be to save more. The advantage of so doing is twofold. By the practice of economy you conserve the material and labor which must be devoted to the great task before us: you cultivate the precious habit of thrift; you gather more and more money to lend to the Nation for the prosecution of the war to a quick and certain victory."

Published under the authority of the Minister of Finance of Canada

Department of Municipal Affairs

Notice of Court of Confirmation of Returns of Unpaid Taxes.

Notice is hereby given that the Judge of the District Court has appointed Tuesday, the 19th day of November, 1918, at 12 o'clock a.m., for the holding of a Court at the Court House in the City of Medicine Hat, for the confirmation of Returns of unpaid taxes made under the provisions of the Educational Tax Act, covering the following territorial units, viz:

Numbers 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

Also for confirmation of the Returns of unpaid taxes made under the provisions of Section 11 of the Educational Tax Act, covering the following territorial units, viz:

Numbers 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

Also for the confirmation of the Returns of unpaid taxes made under the provisions of Section 19 of the Educational Tax Act, covering the following territorial units, viz:

Numbers 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

Also for the confirmation of the Returns of unpaid taxes made under the provisions of Section 30 of the Wild Lands Tax Act, covering the following territorial units, viz:

Numbers 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

Dated at Edmonton 26th of August, 1918.

J. H. LAMB, Acting Deputy Minister, Department of Municipal Affairs.

TOWN OF REDCLIFF.

REVISION OF VOTERS LIST. The Voters' List of the Town of Redcliff is now completed, and may be inspected at the office of the Secretary-Treasurer between the hours of 10 a.m. and 6 p.m., except Saturday, and on that day between 9 a.m. and 12 noon.

Any person having the necessary qualification and whose name has been omitted from the list, is requested to immediately make application to this office, in order that his or her name may be added.

F. H. COURTNEILL, Secretary-Treasurer. September 9th, 1918.

PRODIGAL WASTE BY BIG EARNERS

War Prosperity Has Led to Indulgent Spending—No Thought of Lean Years Ahead.

Side by side with a good deal of thrift, there is a good deal of thriftlessness among us, just now in the writer's immediate neighborhood in the neighborhood of Toronto, and we should like to see a little more of the latter in evidence as it is.

It is surprising that this should be the case in this neighborhood, for it is one in which, only a year before the

first year of the war, the people very many of them, experienced the sting of dire poverty. Work was scarce. Many who had bought their homes could not keep up the installments, or pay the taxes due on them. Many who lived in rented houses could not pay rent. Yet although this was only between four and five years ago, many of the people who suffered must have already forgotten that then they went hungry, and in most cases, almost starving. They don't realize that then they was may be again. They don't believe it. They think that the present boom—for wages are quite abnormally high—will last for ever.

Here is a concrete case. A certain man who, four or five years ago lacked food and all the necessities of life, is today making big money at munitions. He is not putting by a cent. In the three years and more during which he has been working on munitions, he has bought himself two cars. His first car did last long. He gave the poor thing no rest. When it was "well in" he bought another. They are making money for his children, and send his children to the school dentist.

Now when the call is for economy, many women, whose husbands are making big money, are outrageously extravagant in clothes. One of them in the same locality is so in love with fine clothes that she was seen wearing a silk dress when scrubbing the floor. Until her husband got his present \$50 a week job, they had never had more than \$10 a week to get along on.

They have nothing saved (as she admits) and if the man was out of a job tomorrow, all they would have to show as guarantee from their present prosperity would be a quantity of party-worn fine clothes.

Many families are literally eating up their big earnings. One that I know will give \$20.50 for a leg of lamb for Sunday dinner. The father takes to work for his lunch, although he has bought cooked at a store, for which a big price is paid. The butcher who serves them says he could not begin to afford the expensive food they consume in large quantities.

War-time prosperity is just giving them a good time—for a time. What of the "lean years" that may be ahead? In the cases mentioned, and they are typical of very many in this one neighborhood, no provision whatever is being made for them.

INCREASED ACREAGE.
The Canada Food Board says: "Every effort should be made to help the farmers of Canada to put an increased area under the plow this fall. City men have helped with the harvest and success seems to be assured. City men must help out in cases where farmers find labor scarce for fall plowing. Men, now in cities, who have worked on farms, and can handle horses, should render themselves available for this important work."

"ALLIED LOAN" FOR CANADA.
As cereal substitute flours are now becoming available from "the new crop, their use in the Canadian staple and loaf will be increased shortly to 20 per cent, so that Canadian bread will conform to the "Allied Loaf" policy, as decided upon by the Food Controllers of the respective countries.

On the eve of his departure to join the Canadian force for Siberia, Luther Clare was presented with a very fine wrist watch by his fellow workmen in the Rolling Mills here.

Will Now Control.

Sale of Gasoline

Food Controller Magrath announces that regulations have now been approved by the governor-general in order to control the wholesale and retail sale of gasoline in Canada. The regulations provide for the licensing of all persons who deal in gasoline in Canada, and certain fees are prescribed based on the volume of gasoline sold during the previous year.

The cases where dealers fail to obey the provisions of the law the food controller has absolute power to cancel or suspend licenses without notice.

All persons who continue to deal in gasoline without making application for a permit to do so will be subject to a penalty of \$50 for each day such business is conducted in contravention of the regulations.

Provision is also made for the keepers of gasoline are called upon to file of certain sales records, and to report in their places of business the wholesale as well as the retail cost of gasoline handled by them. One important provision of the regulations is that for the duration of the war the sale of gasoline on Sundays is absolutely prohibited.

Retail maximum prices are prescribed for establishments selling gasoline in quantities over a thousand gallons a month. Profits are based on a 10 per cent advance over the wholesale cost delivered.

These regulations mark the first step towards bringing the control of the sale of gasoline under the same sort of supervision as is now extended to the sale of coal and other fuels.

Slackers Treaties to Be Effective Here

Negotiations with Belgium, Greece and other countries which led to the signing of "slackers treaties," which have been in progress for the last two months, are now said to be so near completion that steps have already been taken by the authorities to secure a list of the names of citizens of allied countries now resident in Canada who will be called upon to join the colors. No exact data as to the number of new fighting men to be metred is available, but it is believed that they will be sufficiently numerous to increase the fighting force of the allies by more than one army division.

Canadian Government Commander Butter

Great Britain and her allies have been short of butter for several months, and the Canada Food Board has been asked to help steps to be taken to increase the supply of butter for the people of Great Britain, France, Italy and Belgium. The pressure upon cargo space has been heavier than ever, since the United States has entered the war, and began moving her troops across the Atlantic. Ships are needed for soldiers and munitions of war, as well as for food stuffs. The main staple food stuffs naturally receive the first consideration.

Today in Great Britain one-half pound butter or margarine per month per person, if all that the supply allows, as compared to the creamery butter consumption of two pounds per person per month in Canada.

The Canadian government on the recommendation of the Minister of Agriculture and the Canada Food Board, at the request of the British Ministry of Food for increased shipments, has commanded all the creamery butter made between September and November 1918 inclusive, in the provinces of Alberta, Saskatchewan, Manitoba, Ontario and Quebec for export to Great Britain and allies.

Are You Eating Your Share of Fish

Canada is one of the great fish producing countries of the world, but Canadians are not eating their share even yet. The catch in 1917 was \$56,000,000 pounds or an equivalent of 94 pounds per head of population, while our consumption has been only about 29 pounds per head of population of recent years. The Canada Food Board is providing greater facilities for the marketing of Atlantic and Pacific fish in inland Canada, and Canadian consumption of fish is increasing.

Direct Taxation Coming in Canada

"Depend upon it, we are going to have direct taxation in Canada after the war. I see no other way in which the money we shall need can be raised." The wealth of this country must contribute to the nation's expenditure in a greater degree than in the past," said Hon. F. B. Carvell, minister of public works, in addressing the Vancouver Canadian club. Mr. Carvell pointed out that Canada must raise after the war more than twice as much money as before the war, especially pensions and interest on the national debt alone would account for more than the ordinary national expenditure during peace times. This necessity must involve a revolution in the Canadian financial system, and there must be a complete change in the plans for carrying on public works. "We are not going to spend money if it is not needed."

Thinks Turkey Will Quit Soon

In speaking on the Turkish situation in the London Standard, dated yesterday, said: "The surrender of Turkey within the next 48 hours will not surprise well informed quarters in London." "The British authorities," it adds, "are in possession of information showing that a process of disintegration exists in Constantinople."

Canadian Labor Opposes Peace Move

Tom Moore, the new president of the Trades and Labor Congress of Canada, has issued the following statement on the Hun peace proposals: "Our desires to establish peace for the living must not allow us to accept a peace that would betray the dead or leave the possibility of 'the unborn generations being again engulfed in such a world catastrophe.' Such a peace it would be if entered into with the junkers and military caste of Germany, with their love of war and promise of militarism still on their lips."

The Redcliff Review

ITEMS OF LOCAL INTEREST

The Union of Alberta Municipalities is convening in Medicine Hat this week.

Manitoba may have to supply Montreal and Toronto with potatoes this winter. Manitoba had an exceptionally large crop.

H. R. Hodge opened last Monday in town on business. Mr. Hodge is now enjoying civilian life, having been honorably discharged last month.

Geo. Worts, of the Worts Bros. butcher shop here, shipped two car loads of cattle from Norwell Hat this week. The cattle were bought from the farmers of the district and were in excellent condition.

The auxiliary schooner J. N. Green-shield, the first of six to be built by the William Lloyd company, was recently launched at Vancouver. The vessel is 2,000 tons deadweight and 235 feet long.

As next Monday, Oct. 14th, will be observed as Thanksgiving Day, all over Canada, all the stores in town will be closed for the day. Purchases enough provisions Saturday to last you till next Tuesday.

Miss Alberta Gould of River John Nova Scotia, is a visitor at the Manor the guest of Rev. and Mrs. Gordon. Miss Gould is a graduate of Victoria General Hospital, Montreal, and is on her way to visit friends in Edmonton.

The first of a large consignment of hay for A. L. Peterson, a large rancher north of town, arrived in town this week and is now being moved to the ranch. Six car loads are already here. In all he expects about 20 car loads. This hay was secured in the north country.

J. Ardinger now has a gang of men busy at work on the completing of the second story of the Ware Block. The building has been completed and plasterers are now putting on the finishing touches. When this is completed a hardwood floor will be put down and this large room will be modernly fitted up for meetings, dances and entertainments.

King Cheng, who has been running an up-to-date laundry on Fourth street just north of the town hall for the past few years, is now visiting at his home in Hong Kong. King's son, who is conducting the business here during his absence, received a letter from his father this week stating that he is confined to his bed with a serious illness and does not expect to be able to return for some time.

In the opinion of competent authorities there will be more wheat of the No. 1 northern grade in western Canada this year than ever before. Manitoba has reason to be proud of its greater production record this year. Approximately 20 million bushels more of feedstuffs will be grown than in 1917, bringing returns to the farmers of the province 35 million dollars more than they received last year.

A bunch of keys, apparently all of the same make, was found on the street this week. Owner may get same at this office.

F. H. Reiger, at one time on the "News" staff in Medicine Hat, was arrested in Tulsa, Okla., on the charge of bigamy. It appears that while in the Hat he ran away with another man's wife while his own wife was visiting in Ingersoll, Ont.

The Medicine Hat city council has abolished the ward system previously used at election time. In future aldermen will be elected from this city as a whole. The council is now considering the advisability of adopting the commission form of municipal government.
